7.2 Inviting a Member.

7.3 Accepting or Rejecting an Invite.

7.4 Viewing Team Members.

1. Introduction.

1. Signing in: Quest board uses Google sign-in for authentication. It is easy and convenient and removes the necessity of remembering your password.
   Steps:
   - **Open the app: Navigate to the QuestBoard in your browser.**
   - **Click "Sign In": Click the "Sign In with Google" button in the bottom-left sidebar.**
   - **Choose account: Select your Google account from the popup.**
2. Signing Out: Click the "Sign Out" button in the bottom of the sidebar at anytime.\

2. Projects.

Everything in QuestBoard lives inside a project. You can own projects or be a member of ones.

1. Creating a Project:
   - **Open selector: Click the project dropdown at the top of the sidebar, then select "+ New Project".**
   - **Name it: Enter a project name (required) and an optional description.**
   - **Create: Click "Create" – you are automatically the owner of the new project.**

   <u>Note: Only project owners can create tasks, discussion boards, and manage members.</u>

2. Switching Projects: Use the project dropdown in the sidebar between any project you own or are a member of. The URL updates automatically so you can bookmark a specific project.

3. Tasks.

The Tasks page shows all tasks for the selected project, grouped by folder. A weighted progress bar at the top reflects how much work has been completed – urgent tasks count more toward the total than optional ones.

1. Creating a Task(available only to project owners):
    - **Open modal: Click the "+ Create Task" button.**
    - **Fill in title: Enter a task title – this is required.**
    - **Set priority: Choose a priority level: Optional, Low, Medium, High, or Urgent.**
    - **Assign members: Click "Assign Members" to select who should work on this task.**
    - **Set deadline: Pick a date and time for the task deadline.**
    - **Add description (Optional): Describe what the task involves.**
    - **Attach a file (Optional): Click "Upload Attachment" to include a file with the task.**
    - **Create: Click "Create Task to save it".**
2. Priority Levels & Task Weight:

Each priority level carries a weight that affects the progress bar calculation: Urgent – 5, High – 4, Medium – 3, Low – 2, Optional – 1; These values represent the contribution that is made by completing a task.

3. Viewing & Updating a Task

Click any task card to open its detail modal. From here you can:

- View all task details, priority, status, deadline, assignees, and attachments.
- Update status – assigned members and owners can change status to Not Started, In Progress, Or Completed.
- Take Task – assign yourself and move the task to In Progress in one click.
- Download attachments directly from the modal.

4. Editing a Task (only available for project owner):

- **Open task: Click any task card to open the detail modal.**
- **Edit: Click the "Edit Task" button.**

- **Modify fields: Update title, description, priority, deadline, folder, or attachments.**
- **Manage files: Remove existing attachments with X button or add a new ones with "+ Add Files" to apply.**

5. Deleting a Task:

Open the task modal and click "Delete Task" (only for owner). Confirm the prompt – deletion is permanent.

6. Searching & Sorting Tasks:

- Type in the search bar to filter tasks in real time.
- Click "Sort By" to sort by Deadline, Priority, Status, or Title. Click the active sort again to clear it.

4. Task Folders:

Folders help you organize tasks into logical groups within a project. Tasks not assigned to a folder appear under Uncategorized.

1. Creating a Folder:

- **Click + New Folder: Found in the top-right of the Tasks toolbar.**
- **Type a name: Enter the folder name in the input that appears.**
- **Press Add or Enter: The folder is saved and appears immediately.**

2. Assigning a Task to a Folder:

- **Open Task: Click the task card to open its modal.**
- **Click Edit Task: Switch to edit mode.**
- **Select folder: Choose a folder from the "Folder" dropdown.**
- **Save: Click "Save Changes".**

3. Collapsing & Expanding Folders:

Click the folder header row to collapse or expand the task grid inside it. The chevron shows the current state.

4. Deleting a Folder:

Click the X button on the right side of a folder header. Tasks inside are automatically moved to Uncategorized – they are not deleted.

5. Calendar:

The Calendar page shows all project tasks plotted by their deadline date. Switch between Month, Week, Day, and Agenda views using the controls at the top of the calendar.

1. Reading the Calendar:

    - **Red = Urgent, Orange = High, Blue = Medium, Green – Low, Gray = Optional or Completed. Task color marks its priority.**
    - **Appear faded – it is completed.**
    - **To open the full task detail modal – click any event.**
2. Deadline Alerts:

    When you open the Calendar Page, a popup automatically appears if any tasks are due within the next 2 days. Click "Got it" to dismiss the alert. It will reappear the next time you load the page.

6. Discussion Boards:

Discussion Boards provide a space for your team to communicate on topics related to the project. Boards contain posts, and posts contain comments.

1. Creating a Discussion Board (only project owners can create discussion boards):

    - **Open Discussions: Navigate to Discussion Board in the sidebar.**
    - **Click + button: Click the "+ Create Discussion" button.**
    - **Name the board: enter a title.**
    - **Set visibility: Check "Private Board" to restrict access to selected members only.**
    - **Create: Click "Create" – the board appears in the list immediately.**

2. Creating a Post:

    - **Select a board: Click a board name to expand it.**
    - **Click + Create Post: Button in the top-right header of the Discussions page.**
    - **Fill in details: Enter a post title (required) and optional description.**
    - **Create: Click "Create" – the post appears in the board.**

3. Viewing & Commenting on a Post:

- **Open Post: Click any post title to open its detail page.**
- **Read: View the post content, author, and timestamp.**
- **Add comment: Click "+Add Comment", type your comment, and click "Post".**
- **Read comments: Comments appear in chronological order below the post.**

7. Creating a Team (only signed in users can do that):

Teams let you group project members together for collaboration. Team owners can invite members by email, and invited users receive a notification to accept or reject the invite. Teams are linked to a project.

1. Creating a Team:
   - **Open Teams page: Navigate to the Teams page from the sidebar.**
   - **Click "+ Create New Team": Button in the top-right of the page header.**
   - **Enter team name: Type a name for your team (required).**
   - **Create: Click "Create" – you are automatically added as the team owner.**

2. Inviting a Member:

   - **Expand team: Click the team name to expand its member list.**
   - **Click + Invite Member: Button appears at the top of the team panel (owners only).**
   - **Enter email: Type the email address of the person you want to invite.**
   - **Send Invite: Click "Send Invite" – the invite is queued as pending. The invited person must sign in with the same email address to see their invite.**

3. Accepting or Rejecting an Invite:

When you have a pending team invite, a yellow notice section appears at the top of the Teams page listing all invites.

   - **Click "Accept" to join the team – you are added as a member immediately.**
   - **Click "Reject" to decline – the invite is marked as rejected and disappears from your list.**

4. Viewing Team Members:

Click any team name to expand it and see the full member list. Each member shows their display name and role:

   - **Owner – the person who created the team. Can invite new members.**
   - **Member – a regular team member.**
